Cypress, TX 77433 • 832-684-3391 • dvasquezjr9@gmail.com

## Professional Summary

Driven Full-Stack Developer well versed in team collaboration to formulate and conceptualize corporate web presence. Specialty embracing challenging projects requiring detailed coding changes, search engine-related considerations and website analysis. Motivated to learn, grow, and excel in IT.

## Career Highlights

- Provided a technological solution that enabled a local church to sale over 100 books during the COVID-19 pandemic
- Established a web presence for 25+ businesses in the Houston area.
- Contributed to the development of a database application for a local church that allowed for an improved management of statistical data.

## Professional Experience

### Boral Agency – Houston, TX

Marketing agency that grows their clients' businesses through digital marketing. I served as the primary web developer who was actively involved in each stage of development, including both frontend and backend.

### Web Developer, 10/2019 to 03/2021

- Developed websites using various web technologies.
- Other duties included SEO, website speed optimization, and Google Analytics reports.
- Worked with large companies and educational institutions such as University of Houston, Houston Community College, and Gulf Coast Distillers.

## Education

### Western Governors University - Salt Lake City, UT

B.S. Computer Science, Expected in Fall 2021

## Extracurricular & Volunteer Activities

### Iglesia Evangelica Cristiana Espiritual – Galena Park, Texas

Served as youth treasurer (2016), youth president (2017), and regional statistician (2019 – Present).
